Definitions

Capitalised terms used in the Guidelines have the meaning ascribed to them in this Section.

Award	The allocation or granting of a specific amount of funding to selected Candidates based on the evaluation of their Proposals.
Award Notice	Public announcement by SIFI of the CfP results and the Awardees. The Award Notice includes the Candidate's name and the total investment amount awarded by SIFI. Unsuccessful Candidates will remain anonymous.
Awardee	A Candidate selected to receive funding based on the successful submission of their Proposal.
Call for Proposals ("CfP")	A structured process through which SIFI invites impact fund managers to submit commercially viable investment proposals aligned with specific thematic priorities, in order to deploy first-loss capital and mobilise private investment toward the SDGs in developing markets.
Cancellation Notice	Public announcement by SIFI to cancel the CfP Process.
Candidate	Person submitting a Proposal in a CfP Process.
CfP Documents	Documents comprising the CfP, including <ul style="list-style-type: none">• Stage 1 - Request for Proposals (RfP), including eligibility criteria and selection criteria• CfP Framework• Side Letter and any clarifications or amendments issued during the CfP Process.
CfP Launch	The official start of Stage-1 when CfP Documents are published and the Stage-1 RfP is issued
CfP Notice	A public announcement that provides information about the funding opportunity, including requirements and submission deadlines. It serves as an invitation for qualified Candidates to submit a proposal for evaluation and consideration.

CfP Procedure	Type of procedure (e.g., International Competitive Bidding) undertaken to select Awardees.
CfP Process	Process to select Awardees starting with the CfP Launch and ending with the Award Notice or Cancellation Notice of the CfP Process.
Declaration of Undertaking	Statement of integrity, eligibility and social and environmental responsibility as per the format provided in this Framework.
e-procurement system	Online platform to which Candidates must upload their Proposal.
Evaluation Matrix	A scorecard used for evaluating Candidates' Proposals and Answers to Clarification questions. This document serves as the basis for evaluation at each stage and contains the basis for the information presented in the Evaluation Report. The Evaluation Matrix is confidential.
Evaluation Report	Report prepared after each stage and submitted for approval to SIFI. The Evaluation Report is confidential.
Executive Summary	An Executive Summary (Form 1), not exceeding 2 pages, is to be submitted by Candidates in Stage-1 and Stage-2, including the key fund terms.
Financial Model	Structured and dynamic Financial Model, provided in Excel format, that provides a forward-looking projection that demonstrates the fund's commercial viability and impact-driven investment strategy , typically detailing the fund economics, portfolio/capital deployment plan, financial performance, risk allocation (including first-loss capital), cash flows, capital structure and distribution waterfall.
Fund	Impact fund in which SIFI may invest.
Clarification Call	A clarification held with shortlisted candidates after receipt of their written responses to the clarification questions, to discuss these responses and address any subsequent or follow-up questions. This call takes place after submission of the clarification questions

and before the interview with the Investment Committee members (IC)

Interview	Interviews with shortlisted Candidates, providing Investment Committee (IC members) with a dedicated opportunity to ask questions directly. Interviews take place in Stage-2.
Joint Venture (“JV”)	Association with or without a legal personality distinct from that of its members, of more than one Person where one member has the authority to conduct all business for and on behalf of any and all the members of the JV, and where the members of the JV are jointly and severally liable for any contractual undertaking in the name of the JV.
Key Person	A natural person whose skills, qualifications, knowledge and experience are critical to the success of the proposed Fund, and whose curriculum vitae is considered during the CfP Process.
Minimum Criteria	Minimum requirements that must all be met by the Candidate in order to be eligible for participation in a CfP. Failure to meet a minimum criterion will result in the rejection of its Proposal.
One-Envelope	Requirement to submit the Technical Proposal (PDF) and the Financial Model (EXCEL) in one submission.
Person	Any natural or legal person.
Proposal	Set of documents submitted by a Candidate during Stage-1 to allow for an in-depth evaluation of the Candidate’s application for funding. The Proposal consists of the Technical Proposal and the Financial Model.
Clarification Questions	Set of questions tailored to each shortlisted candidate shared during Stage-2.
Request for Proposals (RfP)	Stage-1 document setting out requirements and submission procedures for Candidates’ proposals to the CfP.
Sanctionable Practise	Any coercive, collusive, corrupt, fraudulent, or obstructive unlawful practise.

Selection Criteria	Criteria based on a point system to evaluate and compare all the Proposals submitted by the Candidates.
Side Letter	A legally binding written agreement signed between the SDG Impact Finance Initiative and the Awardee that outlines specific requirements and rights pertaining to SIFI, which go beyond the standard set of legal documents for the Award. Whether a Side Letter is necessary will be determined by SIFI on a case-by-case basis.
Stage-1	First stage of a Two-Stage Selection Process. The purpose of Stage-1 is to get an overview of all the necessary information to shortlist the most promising Candidates for consideration in Stage-2.
Stage-2	Second stage of a Two-Stage Selection Process. The purpose of Stage-2 is to ask tailored questions to each candidate, based on their proposal submissions, to obtain missing information or clarifications in order to identify the Awardees.
Sub-contractor	A Person to whom the Candidate subcontracts certain tasks.
Technical Proposal	A comprehensive proposal submitted by Candidates that outlines their strategy, team, pipeline, approach, methodology, reporting, etc.
Tender Agent	A Person appointed to manage the CfP Process, facilitating communication between the mandating authority (SIFI) and potential Candidates, and ensuring transparency and fairness throughout the CfP procedure.
Two-Stage Selection	The CfP process is divided into two consecutive stages: Stage-1 and the subsequent Stage-2.

(A) Background

The SDG Impact Finance Initiative (SIFI) is a Swiss non-profit association established in 2021 by the Swiss State Secretariat for Economic Affairs (SECO), the UBS Optimus Foundation, the Credit Suisse Foundation, and the Swiss Agency for Development and Cooperation (SDC). In 2024, the Government of Luxembourg joined the association as a member, and the UBS Optimus Foundation and Credit Suisse Foundation merged. In 2025, SIFI welcomed the Ursimone Wietlisbach Foundation as a new partner to the initiative.

With the UN Sustainable Development Goals (SDGs) funding gap reaching USD 4 trillion annually, this initiative aims to advance the SDGs by mobilising up to CHF 1 billion in private capital through innovative finance solutions and fostering collaboration between public and private partners. Its objective is to drive measurable progress in ODA-countries, as defined in the OECD's "DAC List of ODA recipients," with a focus on Least-Developed Countries.

Despite the growing interest in impact investing, several barriers hinder impact investors from effectively investing in developing countries. These barriers include: Small deal sizes and high associated deal costs; Cost of sourcing appropriate deals; Unfavourable risk-return profiles; Limited exit options; Lack of standardisation – e.g., across social and environmental themes; High set-up costs; Scope for impact washing; Low sophistication and high cost of impact measurement methods; Information mismatch across complex impact investment value chains; Awareness gap with persistent misconceptions (e.g., regarding the scope for commercial returns) constraining the growth of the market.

In order to effectively address these challenges and create an enabling environment for impact investment at the scale required to accelerate progress in addressing the SDGs, SIFI has outlined the following fundamental objectives:

- support the design and development of innovative financial solutions addressing the SDGs through grant and seed funding, community building, and collaboration;
- scale and mainstream new impact investment solutions that contribute to measurable progress in developing countries towards the SDGs by mobilising new financial capital and strengthening portfolio companies;
- raise awareness, improve framework conditions, and promote quality impact management practises to further enhance impact investment flows.

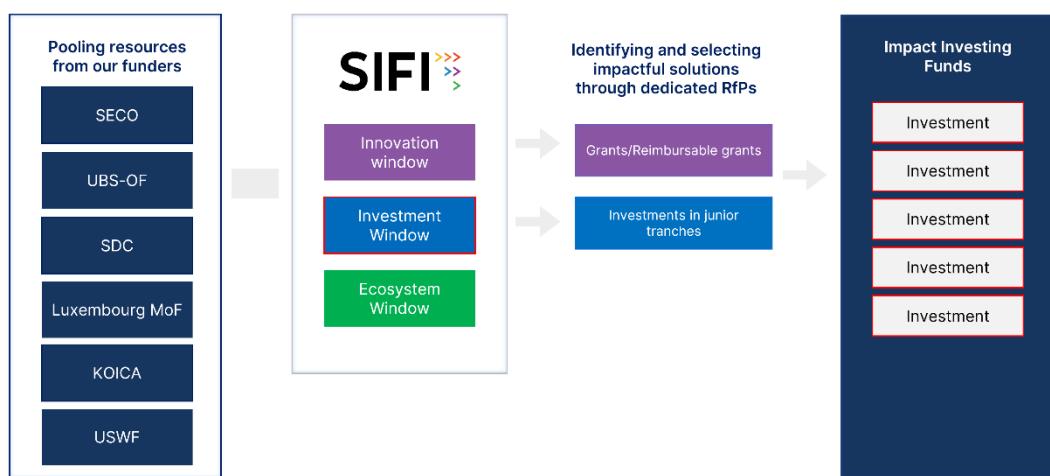

Philanthropic and public capital, being the most risk-tolerant forms of capital, play a crucial role in testing and developing new financing solutions for SDG investments, catalyzing their adoption before commercial viability. SIFI therefore provides grant and investment support to

promising ideas for new financial mechanisms that have the potential to mobilise private investment at the scale required to accelerate progress on addressing the SDGs. This support will be provided through three windows:

1. Innovation Window: providing grants to design and pilot ideas for new impact financing solutions that address the SDGs.
2. Investment Window: providing catalytic finance, such as first-loss investments and guarantees, technical assistance and concessional capital to help enterprises scale up ideas with proof of concept.
3. Ecosystem Window: providing grants for research and advocacy activities focused on strengthening the enabling environment for blended finance.

This Framework has been designed for the **Investment Window**.

Figure 1: Support Structure with Emphasis on Investment Window

(B) Principles

The Framework outlines the following fundamental rules of SIFI's CfPs:

- **Fairness:** All eligible Candidates shall be given equal opportunity to participate in the CfP Process;
- **Ethics:** CfP Processes shall be carried out on the basis of ethical principles that adhere to the highest standards of social, environmental, and legal integrity;
- **Competition:** CfP Processes shall be carried out on the basis of competitive bidding. The procedure chosen for a CfP must maximize the number of potential Candidates;
- **Transparency:** The CfP Process shall be thoroughly documented. All parties involved shall have the right to access relevant information, including documentation related to the scope of works, CfP Process, decision-making procedures, and timing;
- **Confidentiality:** All documentation and information provided by Candidates will remain confidential. Only the parties involved shall have access to the relevant information in accordance with their respective right to information;
- **Accountability:** SIFI shall be accountable to its Board, Donors and the General Assembly for the proper use of SIFI funds. It shall respond to reasonable requests for clarification of decision-making procedures and justification for CfP decisions, as well as provide reports on how SIFI funds have been used.

(C) Participation

1. Eligibility Criteria

Candidates (including all members of a JV and proposed or engaged Sub-contractors) shall not be awarded funding if, on the date of submission of their Proposal or on the intended date of Award, they:

- are not a legally established entity;
- are bankrupt, being wound up or ceasing their activities, are having their activities administered by courts, have entered into receivership, or are in any analogous situation;
- have been (i) convicted by a final judgement or a final administrative decision or subject to financial sanctions by Switzerland and/or the United Nations and/or the European Union for involvement in a criminal organisation, money laundering, terrorist-related offences, child labour or trafficking in human beings; this criterion of exclusion is also applicable to legal Persons, whose majority of shares are held or factually

controlled by natural or legal Persons which themselves are subject to such convictions or sanctions and/or (ii) convicted by a final court decision or a final administrative decision by a court, authorities in Switzerland or the European Union for Sanctionable Practise during any CfP Process or the performance of any mandate or for an irregularity affecting the mandator's interests, unless they provide supporting information together with their Declaration of Undertaking which shows that this conviction is not relevant in the context of the respective mandate;

- have been subject, within the last five years, to a termination fully settled against them for significant or persistent failure to comply with their legal obligations, unless (i) this termination was challenged and (ii) dispute resolution is still pending or has not confirmed a full settlement against them;
- have not fulfilled applicable fiscal obligations regarding payments of taxes either in the country where they are constituted or in Switzerland;
- are subject to an exclusion decision of the World Bank or any other multilateral development bank and are listed in the respective table with debarred and cross-debarred firms and individuals available on the World Bank's website or that of any other multilateral development bank, and cannot demonstrate with supporting information along with their Declaration of Undertaking that the exclusion is not relevant in the context of the relevant mandate;
- have given a misrepresentation in supplying the information requested as condition of participation in the CfP Process;
- qualify as a development financial institution, multilateral development bank or similar.

2. Conflict of Interest

Candidates (including all members of a JV and proposed or engaged Sub-contractors) are not eligible to participate if they:

- have a business or a family relationship with SIFI's staff involved in the CfP;
- are controlled by or control another Candidate or are under common control with another Candidate, receive or grant subsidies directly or indirectly to or from another Candidate, have the same legal representative as another Candidate, maintain direct or indirect contacts with another Candidate which allow them to have or give access to information contained in the respective Proposals, to influence them or influence the decisions of SIFI.

3. Sanctionable Practise

SIFI reserves the right to take any appropriate action to check for ethical standards and to reject a Proposal for Award if, during the CfP Process, the recommended Candidate for the Award has engaged in Sanctionable Practises, either directly or through an agent, with the intention of being awarded the funding.

4. Environmental, Social and Governance Standards

SIFI requires that Candidates adhere to international best-practise environmental, social, and governance (ESG) standards within their operations. In this context, Candidates shall adhere (as a minimum) to the [International Finance Corporation's Performance Standards \(IFC PS\)](#) and the [International Labour Organisation's \(ILO\) Fundamental Conventions](#).

5. Declaration of Undertaking

The Awardee (including all JV partners) shall observe the highest standard of ethics in respect of ESG standards during the CfP Process and thereafter. SIFI requires Candidates to provide a duly signed Declaration of Undertaking as part of this CfP Process as well as a Side Letter. If the Declaration of Undertaking is not provided or if a Candidate fails to comply with the included declarations or commitments, SIFI reserves the right to reject the Proposal of such a Candidate, or to terminate the Award.

(D) Process

1. CfP Procedure

All CfP Processes are subject to market standard procedure.

2. Evaluation Method

All CfP Processes follow the Quality and Cost-Based Selection (QCBS) method attributing 50 % weight to the Technical Proposal, 10 % to the Financial Model and 40 % to the Interviews unless otherwise specified for the respective CfP.

3. Selection Process

All CfP Processes shall follow a Two-Stage Selection Process.

In Stage-1 Candidates are invited to submit a 10-page Technical Proposal with pre-defined Appendices as well as a separate Financial Model (in Excel). The Technical Proposal and the Financial Model submitted by the Candidates will be evaluated based on the minimum and selection criteria defined in the Request for Proposal (RfP) document through a preliminary

assessment. The most-promising Candidates from Stage-1 are to be shortlisted for Stage-2. The number of shortlisted candidate will be capped at 6 Funds, unless the Board decides otherwise.

In Stage-2 the shortlisted Candidates are invited to submit answers to clarification questions based on the submitted Technical Proposal and Financial Model. Once the answers to the Clarification Questions are submitted, candidate shall be invited for a 1-hour Clarification call. Shortlisted Candidates from the clarification call shall be invited to an Interview during which they will have the opportunity to present their proposal to Investment Committee members.

All costs related to the preparation of Proposals shall be borne by the Candidate.

4. Submission Format

Stage-1 Proposal submission shall be by a one-Envelope submission process comprising a single electronic submission of two files: the Technical Proposal (including cover page, appendices and forms) in PDF format and the Financial Model as a separate document in Excel format. The Technical Proposal must not exceed 10 MB (megabytes).

5. Award Volume and Minimum Funding Requirement

SIFI may allocate the full amount in a CfP Process to one selected Candidate or split it among several selected Candidates. Therefore, the Candidate shall mention in its Proposal the minimum amount required from SIFI in CHF in order to be viable (i.e. the candidate may indicate a minimum amount to be received from SIFI if selected).

(E) Preparation of Proposals

1. Language

Proposals shall be prepared in the English language. The same requirement applies to the Fund's legal documents between SIFI and the Awardee, which shall be signed and binding in the English language only.

2. Joint Ventures

The Candidate has the option to form a Joint Venture (JV) with national and/or international entities to enhance their qualifications and capabilities, either under an existing JV Agreement or with the intent to enter into such an agreement supported by the Declarations of Association. In the case of a JV, all members shall be jointly and severally liable for the execution of the contract.

If the Candidate is a JV, the Candidate shall nominate an authorised representative who will have the authority to conduct all business on behalf of the Candidate and all its members. This authority extends to the Stage-1 process, Stage-2 process, and across the lifetime of the Award. The authorization shall be in the form of a written power of attorney.

The Candidate may engage Sub-contractors, whose relationships with the Candidate are contractual, and who are not held jointly and severally liable for the execution of the contract. Sub-contractors shall not be engaged by multiple Candidates.

The Candidate shall ensure that its staff, Joint Venture members, Sub-contractors, agents (declared or not), service providers, suppliers and/or their employees meet the requirements on eligibility and conflict of interest as established in the relevant Forms.

The Candidate, including individual members of any JV, may submit more than one Proposal by proposing different funds under the same Candidate's name. However, the Candidate is required to submit a separate Proposal for each proposed fund.

3. Key Persons

With the submission of the Proposal, the Candidate confirms the unrestricted availability of the proposed Key Persons in accordance with the requirements defined in the CfP Documents in the case of Award. After finalisation of the evaluation and before Award or any pre-award discussions, whichever is first, SIFI shall request the Candidate proposed for Award to confirm the availability of the proposed Key Persons.

Should any of the proposed Key Persons become unavailable during the initial Proposal validity period for duly justified reasons beyond the control of the Candidate (e.g., accident or sickness), the Candidate shall propose an alternative expert with an equal or better qualification. If the replacement Key Person's qualification is not equal or better than the qualification of the initially-proposed person, the Proposal shall be rejected. If an extension of the Proposal validity period becomes necessary, Candidates shall be requested to reconfirm the availability of the Key Persons along with their response to the extension request by SIFI. At this stage Candidates shall be allowed to propose replacement Key Person(s) without justification. The replacement Key Person(s) shall have equal or better qualifications otherwise the Proposal shall be rejected.

4. Fund Structure and SIFI's role

Candidates are required to submit a diagram and clear explanation to explain the inflow of SIFI capital, investment tranches (i.e. proportional split between senior and junior tranche, or

between first loss equity and commercial equity) and expected returns. This diagram is mandatory for any structured fund to provide a clear understanding of the fund's structure and the strategic use of SIFI capital. Non-structured funds shall explicitly mention that they are non-structured.

5. **Additionality**

Additionality is a very important principle for SIFI. Candidates must clearly demonstrate, explain and justify (i) how their fund is additional and (ii) how SIFI's funding is additional in terms of:

- **Impact Creation:** Candidates are required to outline their methodology for generating impact that would not have been achieved without the fund's intervention, using a Theory of Change (ToC) and impact Key Performance Indicators (KPIs) aligned with the SDGs defined in the CfP Documentation. The ToC shall explain the causal pathways through which project activities will lead to desired outcomes, and describe the financial and non-financial activities done to create impact with their fund (e.g. active ownership, technical assistance). Additionally, the identified KPIs shall enable quantifiable measurement of progress towards SDG-related impact areas.
- **Private Sector Mobilisation:** SIFI's main funding objective is to mobilise private sector investment to finance the SDGs. Therefore, the Candidates shall explain the extent to which SIFI's investment is expected to mobilise private capital that would not otherwise come to market in the absence of SIFI's funding. This shall be demonstrated through a clear and robust methodology detailing how the Candidate intends to mobilise private sector investors. The methodology shall include (i) the fundraising strategy, (ii) the types of investors targeted, (ii) the current status of the fundraising, (iv) the respective role of the private and public investors within the fund structure. Where applicable, the Candidates shall also provide evidence of their track record in mobilising private sector capital in previous funds. Lastly, proposals shall clearly demonstrate how SIFI's contribution as junior capital is expected to influence investor participation, de-risk investments, and enhance overall capital mobilisation.
- **Innovativeness of the Approach:** Candidates shall explain how the proposed fund structure and investment strategy introduces innovative elements that enable investments not feasible on a purely commercial basis, such as exposure to higher-risk sectors, local-currency investments, or underserved markets. Candidates should also describe how the fund contributes to ecosystem development and differentiates itself from existing funds operating in the targeted sectors and geographies.

(F) Submission

1. E-procurement system

SIFI uses an online e-procurement system that allows Candidates to electronically submit their documents. The platform will not allow Proposals to be submitted after the submission deadline. Delivery via physical means or email will not be considered. It is recommended to upload the documents well ahead of the deadline to avoid last-minute technical difficulties.

2. Submission Requirements

All CfP processes will follow a one-Envelope submission process as described in paragraph D.4 above.

Instructions:

- Proposals must not exceed 10 pages. These limits exclude the prescribed appendices, one cover page and the required Forms.
- Submissions split into multiple PDFs or exceeding the 10 MB size limit will be disqualified.
- The following appendices are to be provided as part of the Proposal:
 - Team CVs
 - Pipeline
 - Investment Track Record
 - Investor Presentation
 - Theory of Change and Impact Framework
 - Capital Structure and SIFI's role
 - Fundraising Status Overview
- Additional appendices that are not listed that are included in the Proposal will not be reviewed.

Candidates are advised to adhere strictly to these guidelines to ensure their submissions are considered.

The Proposal must be submitted exclusively through the SIFI website's submission portal. Submissions made by any other method, such as email, will be disqualified.

3. Deadlines

To provide sufficient time for Candidates to prepare their Proposals, the minimum time periods for submission shall be as follows:

- The time for the preparation of the Proposal will be 20 working days;
- The time for preparing responses to the clarification questions is 10 working days.
- The minimum time for preparing for the interview will be 5 working days.

In exceptional circumstances, the minimum time for the preparation of the Proposal may be increased – for instance, in the event that intensive clarifications or amendments are necessary, an extension to the deadline may be granted. Such extensions will be applicable to all Candidates.

Proposals received after the submission deadline shall be rejected unless the late submission was due to events of force majeure, such as natural disasters. Late submission caused by technical issues are not considered as events of force majeure.

(G) Evaluation

1. Stage-1 Evaluation

In Stage-1, a preliminary examination aims to verify the eligibility of the Candidates and the substantial completeness of the Technical Proposal and the Financial Model, as required by the CfP Documents, before proceeding with a more detailed evaluation. Proposals from non-eligible Candidates or those that are not substantially complete will be disqualified.

The more detailed evaluation will be conducted using an Evaluation Matrix which is based on the criteria outlined in the Stage-1-document. Proposals will be considered qualified if they are ranked among the six highest-scoring submissions.

The evaluation of the Financial Model consists of ensuring that it accurately reflects the key dynamics of the fund presented in the Technical Proposal and supports a reasonable alignment between price and product. Candidates shall provide all commercial terms of the underlying fund, including a comprehensive list of fund expenses and a detailed breakdown specific to the Candidate. The Financial Model should also provide a clear view of the portfolio, include downside return scenarios at the portfolio level, and present the waterfall repayment structure for all types of capital providers.

The evaluation of the proposal focuses solely on the respective Candidate and shall not take into account any qualifications of its subsidiaries, parent entities, affiliates or any other Person different from the Candidate, unless they are associated in the form of a JV with joint and

several liability, or as a Sub-contractor as described below. In exceptional cases, a Candidate with an insufficient financial track record, such as a start-up, can demonstrate its financial qualification by presenting a legally binding letter of comfort from a financially sound parent company (to be provided as evidence).

The qualification of Sub-contractors is generally considered. In case the qualification of a Sub-contractor shall be considered, the Candidate must include the relevant performance of the Sub-contractor in their Proposal.

2. Stage-2 Evaluation

Up to six Candidates with the highest rankings in Stage 1 will be invited to Stage 2. The evaluation of the Candidates' answers to the clarification questions will be conducted using the same Evaluation Matrix, which contains the criteria outlined in the Stage 1 document and will be supplemented with the answers provided. The clarification process shall **not** allow any material changes to the Proposal.

If the Candidate fails to provide satisfactory answers to the request for clarification or if the detailed breakdown reveals inconsistencies between the Technical Proposal and the Financial Model, leading to reasonable doubts about the Candidate's ability to deliver the required performance on the proposed terms, this will be reflected in scores applied in the Evaluation Matrix.

The Stage 2 Clarification Questions will be structured in two parts. In the first part, tailored questions will be provided to each Candidate, with the expectation that written responses will be submitted within a two-week period. Only one iteration of questions will be allowed. Following an internal review of the responses over a period of maximum one week, a clarification call of 1-hour will be organised to review the questions and address any subsequent related matters.

Following the clarification questions, interviews will be conducted between the Candidates and members of the Investment Committee (IC) to gain deeper insights into the Candidates' strategies, capabilities, and alignment with SIFI's objectives. Each interview will last approximately one hour and will include a brief presentation of the Proposal followed by a question-and-answer session. The interviews will be recorded.

The overall score in Stage-2 will be calculated by summing all points in the Technical Proposal, Financial Model, the Clarification questions and the Interview. The Investment Committee has the full discretion to change the ranking of Candidates by overruling the score in the Evaluation Matrix. The Investment Committee recommends a ranking of Candidates and funding

allocation to the Executive Board, documenting the rationale for its recommendations, and the Executive Board takes the final decision.

3. Scoring System

The scoring system for the evaluation of Proposals is based on Minimum Criteria and Selection Criteria.

Minimum Criteria are requirements that must be met by the Candidates. If a Candidate fails to meet one Minimum Criterion, its Proposal will be disqualified. Candidates have to confirm that they fulfil the Minimum Criteria in Stage-1 and must re-confirm this at Stage-2. If a candidate no longer meets the minimum criteria in Stage-2, they will be disqualified.

Selection Criteria serve to grade the Candidates who fulfil all Minimum Criteria. The Selection Criteria are based on a point (scorecard) system to evaluate, rank and compare all the Proposals submitted by all qualifying Candidates.

(H) Communication

1. General

Correspondence between SIFI (represented by the Tender Agent) and (potential) Candidates throughout the various stages of the CfP Process shall be in writing only.

2. Confidentiality

SIFI will handle information concerning the examination, clarification, and evaluation of Proposals in a manner that prevents disclosure of their contents to any other (potential) Candidate or unauthorised parties. This confidentiality will be maintained until SIFI communicates the results of the evaluation of Proposals. However, while information related to the results will be disclosed, the contents of Proposals will remain confidential.

3. Publication

SIFI shall publish the key information (i.e., Framework, Stage-1 document, Stage-2 document, Award Notice, Cancellation Notice) about the CfP Process on its website (primary source). Information about SIFI's CfP Process may also be published on other media and platforms. The information published on SIFI website will prevail in case of any discrepancies.

4. Clarifications

Candidates may submit requests for clarifications regarding the CfP Documents during Stage-1 and Stage-2 up to 10 and 5 calendar days before the submission deadlines of the Proposal

and Clarification Questions respectively. All clarification requests must be submitted in writing and sent by email to the Tender Agent. SIFI's responses to clarification requests will be communicated in writing. Responses will be shared simultaneously by email with all registered Candidates and may be published on SIFI's website. Inquiries by Candidates submitted less than 10/5 calendar days before the respective submission deadline or not provided in writing by email to the Tender Agent will be disregarded.

To facilitate the examination, evaluation, and comparison of Proposals, SIFI may, at its discretion, request clarifications from Candidates and provide them with a reasonable time to respond. Clarifications submitted by a Candidate that are not in response to a request from SIFI will not be considered. Requests for clarification and the corresponding responses from SIFI and the Candidate must be provided in writing. No changes, including voluntary price adjustments or modifications to the substance of the Proposal, shall be requested, except for the correction of arithmetic errors identified by SIFI during the evaluation of the Proposals, in accordance with the CfP Documents.

5. Stage-1 Results to Candidates

SIFI will notify the shortlisted Candidates at the end of Stage-1 about the results and invite them to Stage-2. Candidates who have not been shortlisted shall also be notified. SIFI will not publicly publish the names of the Candidates in Stage-1; neither of the shortlisted Candidates, nor of the unsuccessful Candidates (which will stay anonymous).

6. Stage-2 Due Diligence Process

At the end of Stage 2, following the clarification questions session, interviews, and Investment Committee (IC) decision, SIFI will notify candidates as to whether they have been selected to proceed to the due diligence phase.

The due diligence stage will include a review of all information submitted in Form 10, Form 11, and Form 12, as well as an examination of the data room, to which candidates must grant access following the execution of a Non-Disclosure Agreement (NDA). These materials provide critical insights into the candidates and their proposed solutions.

This process is designed to ensure accuracy and transparency, align with SIFI's objectives and standards, and mitigate risks. Shortlisted candidates will be required to undergo additional operational due diligence checks in line with SIFI's Risk Framework. Investment

decisions will proceed only if all due diligence, legal reviews, documentation, and agreement on terms are successfully completed.

SIFI reserves the right to not proceed with the Candidate if these conditions are not met. All relevant information will be presented to the Board for final approval.

7. Stage-2 Pre-Award Discussions

Discussions will be held with the highest-ranked Candidates after the final Proposal evaluation, prior to the Award Notice. Pre-award discussions are not legally binding. Any outcome of the discussions will be integrated into the Side Letter or other legally binding agreement. In the case of failure of the pre-award discussions with the highest-ranked Candidate, the SDG Impact Finance Initiative may enter into pre-award discussions with the next ranked Candidate.

During this pre-award communication, the award amount will be determined and announced by SIFI and may differ from the amount requested.

8. Stage-2 Results to Candidates

Upon completion of the pre-award discussions at the end of Stage-2, SIFI will inform all shortlisted Candidates in writing about the results of the CfP Process. The information sent to the Candidates shall include the names of the Awardees (including all JV members and Sub-contractors, if any) and the amounts awarded.

9. Stage-2 Publication

Upon completion of the CfP Process, SIFI will publish the results on its website and on other media and platforms as deemed necessary. SIFI will only publish the names of the final Awardees, i.e. all non-successful Candidates within Stage-2 will stay anonymous. Any announcement, selection, or communication made by SIFI does not constitute a legally binding commitment. SIFI reserves the right to suspend, amend, or withdraw an award, in whole or in part, at any time prior to the execution of a final, legally binding contract, should any issues arise.

10. Debriefing

After the publication of the results of the CfP Process (or the cancellation of the CfP Process) in Stage-2, unsuccessful shortlisted Candidates may submit a written request to SIFI for a debriefing. A timely and meaningful debriefing will be provided to the Candidate, explaining the reasons why the Proposal was not selected. The debriefing will not include any

confidential information, such as details about other Candidates' Proposal content. No debriefings are provided to Candidates who are not shortlisted to proceed to Stage-2.

11. Cancellation

SIFI reserves the right to accept or reject any Proposal, to cancel the Stage-1 and/or Stage-2 procedure, and to reject all Proposals at any time, without incurring any liability to the Candidates.

(I) Miscellaneous

1. Tender Agent

A Tender Agent may conduct the entire Tender Process on behalf of SIFI.

2. Decision Process

Stage-1: The Tender Agent evaluates all proposals (Technical Proposal and Financial Model) and establishes a ranking of the Candidates, recommending the highest-ranked candidates to proceed to Stage-2. SIFI validates the selection and submits it to the funders for their non-objection.

Stage-2: The Tender Agent evaluates all answers to the Clarification Questions (both written and from the clarification call) and establishes a ranking of the Candidates. An independent Investment Committee (IC) reviews the proposals and builds its independent evaluation on the analysis and evaluation of the Tender Agent. The resulting ranking from the IC can confirm or differentiate from the ranking proposed by the Tender Agent. Following the results from the IC, SIFI alongside their implementing partners conduct due diligence on shortlisted candidates. Based on the outcome of this extended due diligence, the IC then makes an allocation recommendation to the Executive Board (EB) which takes the Award decision. The EB has the ultimate authority to make the final decision.

3. Decision Validity

The Award Notice and the first disbursement from SIFI to the Awardee must occur within twelve (12) months of the Award Notice. Should the Awardee anticipate an inability to meet this timeline, they must submit a formal request for an extension, clearly outlining the reasons for the delay and providing a revised timeline. Any such request shall be subject to review and approval by the SIFI Board. Failure to meet the twelve-month deadline without an approved extension may result in the Awardee forfeiting its right to SIFI investment and being required to reapply under the subsequent Call for Proposals (CfP).

Form 2 – Declaration of Undertaking

We hereby certify that neither we nor any of our board members or legal representatives nor any other member of our Joint Venture including Sub-contractors, nor any of our major shareholders are in any of the following situations:

- being bankrupt, wound up or ceasing activities, having our activities administered by courts, having entered into receivership, reorganisation or being in any analogous situation;
- convicted by a final judgement or a final administrative decision or subject to financial sanctions by Switzerland and/or the United Nations and/or the European Union for involvement in a criminal organisation, money laundering, terrorist-related offences, child labour or trafficking in human beings; this criterion of exclusion is also applicable to legal Persons, whose majority of shares are held or factually controlled by natural or legal Persons which themselves are subject to such convictions or sanctions;
- having been convicted by a final court decision or a final administrative decision by a court, the European Union, national authorities in Switzerland for Sanctionable Practise in connection with a CfP Process or for an irregularity affecting the mandator's interests (in the event of such a conviction, the Candidate shall attach to this Declaration of Undertaking supporting information showing that this conviction is not relevant in the context of this legal agreement and that adequate compliance measures have been taken in reaction);
- having been subject, within the past five years to a mandate termination fully settled for significant or persistent failure to comply with our mandate obligations during such performance, unless this termination was challenged and dispute resolution is still pending or has not confirmed a full settlement against us;
- not having fulfilled the applicable fiscal obligations with regard to the payment of taxes at the respective tax residence and in Switzerland (Candidates must submit a fully completed and legally countersigned declaration of tax conformity in addition to the Declaration of Undertaking at the time of Award. This shall become an integral part of the mandate. Failure to submit may result in exclusion from the awarding procedure);
- being subject to an exclusion decision of the World Bank or any other multilateral development bank and being listed on the website <http://www.worldbank.org/debarr> or respectively on the relevant list of any other multilateral development bank (in the event of such exclusion, the Candidate shall attach to this Declaration of Undertaking supporting information showing that this exclusion is not relevant in the context of this mandate and that adequate compliance measures have been taken in reaction); or
- being guilty of misrepresentation in supplying the information required as a condition of participation in the CfP.

We hereby certify that neither we, nor any of the members of our Joint Venture or any of our Sub-contractors under the mandate, nor any of our major shareholders are in any of the following situations of conflict of interest:

- being an Affiliate controlled by SIFI or a shareholder controlling SIFI, unless the stemming conflict of interest has been brought to the attention of SIFI and resolved to its satisfaction;
- having a business or family relationship with a SIFI's staff involved in the CfP Process or the supervision of the resulting mandate, unless the stemming conflict of interest has been brought to the attention of SIFI and resolved to its satisfaction;
- being controlled by or controlling another Candidate, or being under common control with another Candidate, or receiving from or granting subsidies directly or indirectly to another Candidate, having the same legal representative as another Candidate, maintaining direct or indirect contacts with another Candidate which allows us to have or give access to information contained in the respective Proposals, influencing them or influencing decisions of SIFI;
- being engaged in an activity, which, by its nature, may be in conflict with the assignments that we would carry out for SIFI;

If we are a state-owned entity, and compete in a CfP Process, we certify that we have legal and financial autonomy and that we operate under commercial laws and regulations. We undertake to bring to the attention of SIFI, any change in situation with regard to the points here above.

In the context of this CfP Process and thereafter:

- neither we, nor any of the members of our Joint Venture or any of our Sub-contractors under the mandate have engaged or will engage in any Sanctionable Practise during the CfP Process and in the case of being awarded the mandate will engage in any Sanctionable Practise during the performance of the mandate;
- neither we, nor any of the members of our Joint Venture or any of our Sub-contractors under the mandate shall acquire or supply any equipment nor operate in any sectors under an embargo of Switzerland and/or the United Nations and/or the European Union;
- we and any of the members of our Joint Venture and any of our Sub-contractors under the mandate commit to comply with and ensuring that our Sub-contractors and major suppliers under the mandate comply with international environmental and labour standards, consistent with laws and regulations applicable in the country of implementation of the mandate and the fundamental conventions of the International Labour Organisation¹ (ILO) and international environmental treaties. Moreover, we shall implement environmental and social risks mitigation measures when specified in the relevant environmental and social management plans or other similar documents provided by SIFI and, in any case, implement measures to prevent sexual exploitation and abuse and gender-based violence.

In the case of being awarded the mandate, we, as well as all members of our Joint Venture partners and Sub-contractors under the mandate will, (i) upon request, provide information relating to the CfP Process and the performance of the mandate and (ii) permit SIFI or an agent appointed by SIFI, to inspect the respective accounts, records and documents, to permit on the spot checks and to ensure access to sites and the respective fund.

In the case of being awarded the mandate, we, as well as all our Joint Venture partners and Sub-contractors under the mandate undertake to preserve above mentioned records and documents in accordance with Applicable Law, but in any case, for at least six years from the date of fulfilment or termination of the mandate. Our financial transactions and financial statements shall be subject to auditing procedures in accordance with Applicable Law. Furthermore, we accept that our data (including personal data) generated in connection with the preparation and implementation of the CfP Process and the performance of the mandate are stored and processed according to the Applicable Law by SIFI.

¹ In case ILO conventions have not been fully ratified or implemented in the SDG Impact Finance Initiative's country the Candidate/Fund shall, to the satisfaction of the SDG Impact Finance Initiative, propose and implement appropriate measures in the spirit of the said ILO conventions with respect to a) workers grievances on working conditions and terms of employment, b) child labour, c) forced labour, d) worker's organisations and e) non-discrimination.

² In the case of a JV, insert the name of the JV. The representative who will sign on behalf of the Candidate shall attach a power of attorney from the Candidate and the JV partners.

Form 3 – Declaration of Tax Conformity

I hereby confirm that:

1. I am authorised to make this declaration on behalf of [name of the company];
2. the company properly pays all taxes in accordance with the tax laws of the country in which the company is domiciled;
3. the company is not currently nor has been in the past involved in any legal proceedings concerning the taxation of the company;
4. the company will duly pay all taxes that may arise;
5. all information and statements provided in advance are complete, accurate in terms of content and currently correct.
6. the proposed Fund is aligned with the OECD principles of Responsible Taxation, specifically:
 - a. Use of Investment Vehicles: Investments through one or more investment vehicles if that it is appropriate to do so for bona fide commercial, regulatory or legal reasons and while the sole purpose is not avoiding tax. When structuring investments, Fund will refrain from making investments through jurisdictions which: (i) have either not been permitted by the Global Forum on Transparency and Exchange of Information for Tax Purposes (<https://www.oecd.org/tax/transparency/>) or have not received an overall rating of "compliant" or "largely compliant"; or (ii) following the peer review of the minimum standard on Action 13 of the Base Erosion and Profit Shifting (BEPS) show evidence of any harmful tax practise (BEPS Action 5), deemed to facilitate base erosion and profit shifting, and therefore have the potential to unfairly impact the tax base of other jurisdictions; (each a Harmful Tax Regime).
 - b. Registration in Other Jurisdictions: The Fund will not without written consent of the Investor Advisory Committee (or equivalent), be registered or open offices in any Harmful Tax Regime.
 - c. Compliance with Tax Laws: The Fund will comply with all applicable laws, including tax laws, in the countries in which business is conducted. The Fund and Fund Manager will further require the Fund's portfolio companies to comply with applicable laws, including tax laws and shall use reasonable efforts to adequately monitor such compliance and to take appropriate action within its power if any material noncompliance is observed.
 - d. Intra-Group Transactions: The Fund will require the Fund's portfolio companies to comply with the arm's length principle when engaging in intra-group transactions involving cross-border transactions (if any) and/or to handle transfer pricing documentation transparently vis-à-vis the relevant tax authorities.
 - e. Risk Assessment: In order to avoid the reputational risk of becoming associated with potentially harmful tax activities, the Fund Manager ensures to accurately assess any risk and to take measures commensurate with that risk of the Fund. Where the tax activities in question are ongoing and ostensibly illegal and there is no possibility that these will be discontinued, the Fund will refrain from the envisaged transaction.

The Fund Manager will consider whether it is possible to impose conditions precedent that require discontinuation of the activities and/or by obtaining commitments to full tax

compliance going forward. In certain cases, in particular where tax laws or regulations are evolving, the legality of the practises may not be clear or may be considered marginal, the Fund Manager will decide and take account of exceptional circumstances (e.g., the practise is "condoned" by local authorities, or is in line with generally accepted international practise), whether it can accept a period of uncertainty or minor non-compliance where the Fund Manager is confident that the legal and reputation risk is low.

³ In the case of a JV, insert the name of the JV. The representative who will sign on behalf of the Candidate shall attach a power of attorney from the Candidate and the JV partners.

Form 4 – Declaration on Conflict of Interest
