

Engagement Guide

Ways to get involved with PRISM Impact Lab

WHY ENGAGE

Shape the evidence base for blended finance

PRISM Impact Lab is the research engine of SIFI's Ecosystem Window, built with ETH Zurich and Tameo. It turns audited, fund-level data into peer-reviewed evidence, practitioner tools and policy input. Partners help shape that evidence and are the first to use it.

- **Early access to findings, benchmarks and tools**
- **An active role in shaping field-level evidence and policy**
- **Association with a neutral, ETH-backed research platform**

HOW TO ENGAGE

Three ways to engage

Funder supporting PRISM

Foundations, DFIs, public funders, family offices

HOW YOU ENGAGE

Fund the platform or a specific workstream. Join the steering or advisory group. Co-shape the research agenda.

WHAT YOU GET

Early access to findings and tools. Recognition as a founding supporter. Influence over field-level evidence.

Fund providing data

Blended finance fund managers, DFIs, LPs

HOW YOU ENGAGE

Contribute audited fund-level data through Tameo under NDA. Join a thematic tier. Help calibrate the tools.

WHAT YOU GET

Confidential peer benchmarking. Early access to structuring and pricing tools. A say in the methodology.

Other partners

Researchers, research institutions, non-profits and companies

HOW YOU ENGAGE

Whatever your angle, we would be interested in any relevant data, along with collaboration on research, methodology, tools, case studies and events.

WHAT YOU GET

A credible, shared evidence base. Early sight of research and events. Visibility across the field.

HOW TO GET INVOLVED

Join based on your thematic interest

T1 | Data & Harmonisation

- Standardisation of fund reporting
- Tranche & capital structure coding
- AFS collection & processing

T2 | Risk Measurement

- Downside risk metrics & thresholds
- Perceived vs. realised risk
- Concessionality calibration

T3 | Impact & Additionality

- Impact measurement frameworks
- Financial additionality evidence
- OBF & concessional pricing

T4 | Policy & Regulation

- Regulatory trajectory & disclosure
- Switzerland's positioning
- Cross-border governance

Take the next step

- **Support PRISM**

Speak to the SIFI team about funding the platform or a workflow.

- **Provide data**

Arrange a confidential data conversation with Tameo, under NDA.

- **Stay close**

Subscribe to the SIFI Newsletter and follow the research as it publishes.

Contact the PRISM team through the SIFI contact form or via SIFI LinkedIn channel
