

# Meet SIFI's New Water & Ocean Resilience Funds

## TWO CATALYTIC INVESTMENTS FOR WATER & OCEAN RESILIENCE

SIFI has selected two funds through its fourth Investment Window Call for Proposals: **Scaling Investable Solutions for Water and Ocean Resilience.**

Following a competitive selection and due diligence process, **Mandala Capital South and Southeast Asia Food Fund III** and **Outrigger Impact Fund I** have been selected for proposed first-loss equity investments totalling CHF 7.25 million.

The funds target commercially viable solutions that contribute to climate adaptation and strengthen the resilience of water resources and marine ecosystems in developing markets.

Aligned with:

## **Mandala Capital South | Southeast Asia Food Fund III**

**Investing in resilient food, agriculture and aquaculture systems across South and Southeast Asia.**

Mandala Capital South and Southeast Asia Food Fund III targets opportunities across food, agriculture and aquaculture value chains, with a focus on sustainable aquaculture, food security and climate adaptation.

The fund aims to address financing gaps in an underserved market segment while supporting businesses and solutions that strengthen resilience and contribute to the blue economy.

### **SIFI support:**

Proposed CHF 5 million first-loss equity investment to help mobilise additional private capital and support the fund's scale-up.

## **Outrigger Impact Fund I**

### **Catalysing investment in the blue economy across Small Island Developing States.**

Outrigger Impact Fund I focuses exclusively on Small Island Developing States, investing in water- and ocean-related solutions across blue economy sectors including ocean conservation, sustainable seafood, blue technology and sustainable blue infrastructure.

The fund is designed to address significant financing gaps in markets that are highly exposed to climate risks and deeply dependent on healthy marine and coastal ecosystems.

#### **SIFI support:**

Proposed CHF 2.25 million junior equity investment to strengthen the fund's fundraising capacity and catalyse additional private capital.
